

**NEW  
TECHNOLOGY!**

## INNOVATIVE GRANULAR SEED COATING TECHNOLOGY THAT RAPIDLY DISSOLVES WITH A REVOLUTIONARY DELIVERY METHOD

### ADVANTAGES

- Free-flowing dry granular eliminates costly freight associated with traditional liquids and reduces storage footprint
- Compliant with the inert ingredient regulations for seed treatment applications required by EPA regulation 40 CFR 180 and manufactured at Sensient's USA Food Colors facility
- Excellent performance in row crop, vegetable seed, grass & forage and botanical seeds
- High potency granules engineered to disperse instantly with good agitation
- Dry granular technology not susceptible to freezing
- Available in Red, Yellow and Blue. Custom blends available upon request

### APPLICATIONS

- Row crop (corn, soybeans, wheat, cotton, sorghum, rice), vegetable seed, grass & forage and botanical seeds

## **Sensient Industrial Colors**

Sensient Industrial Colors is a leading global manufacturer and supplier of colorants for use in agriculture, turf & ornamentals, HI&I, coatings, paper, plastics/resins and specialty markets product applications.

Serving the Americas, Europe, Middle East, Africa and the Indian sub continent, Sensient Industrial Colors use advanced technologies to develop color systems that provide our customers with technical and production advantages. Innovative and high-quality products are supported by personal customer service from knowledgeable experts.

The global structure of Sensient, with over 70 production sites and offices in every major country, provides security of supply with local service.

## **Technical support**

Our technical team provides technical support, application advice and a color sampling service. Please contact us for practical working solutions to any of your color problems.
